

SVENSTUDIOS

hello!

So happy you're reading this! We are Luisa and Steven Duncan, the photographers behind SvenStudios!

As wedding photographers and videographers, my wife and I pride ourselves in our ability to capture the emotion behind a wedding by following a photojournalistic mentality to produce natural, heartfelt scenes that show true emotion.

We love 'capturing moments' as they happen, and having a bit of fun while having your photos done!

There is no better place to be than behind a camera at a wedding!
We love what we do!

We work in the background of your wedding, capturing small moments of pure emotion while also engaging with your personalities and making you feel comfortable while we capture your precious memories.

We'd love for the opportunity to organise a no obligation meetup to have a bit of a chat about your wedding and to get to know each other better. We love hearing about your wedding ideas and would love to contribute some of our own!

STEVEN 'Sven' DUNCAN
LUISA DUNCAN

WHY svenstudios? HERE'S WHY

We approach our weddings as if it were our own; we tend to connect to our couples on a more personal level. Rather than directing people constantly while following a formula, we like to go with the flow of your own wedding day. As a result we capture stories more connected with your personalities.

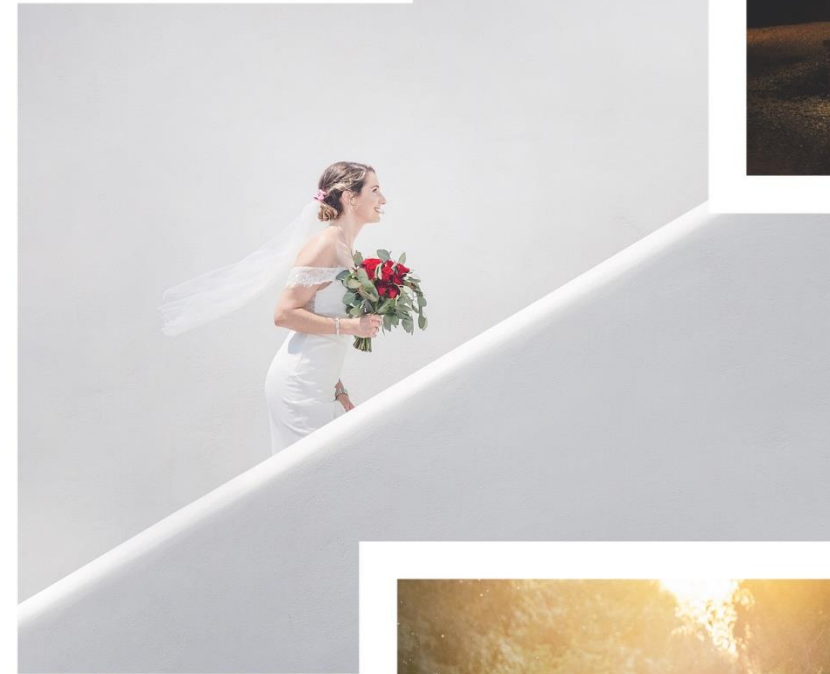

Every wedding is different, and we view that as the exciting aspect of wedding photography. We are constantly gauging you and your guest's personalities and adjust our shooting style to suit.

We find the most natural images, those that are full of emotion come while acting out normal activities, such as walking down a path, or making each other laugh. We use our own quirky personalities that has been honed from years as a primary school teacher to connect with you and make you laugh; and the resulting photos are natural and full of love.

Quite honestly, there is nowhere we'd rather be than shooting a wedding as we honestly enjoy what we do and you'd be hard pressed to see us without a smile on our faces while doing it!

1% minimum of all sales are donated to Earth loving charities

A romantic wedding photograph of a couple in a forest. The groom, wearing a white shirt and dark trousers with suspenders, holds a large bouquet of flowers. The bride, in a white lace gown, leans in to kiss him. They are surrounded by tall trees and golden sunlight filtering through the leaves. A quote is overlaid on the right side of the image.

love is like
a friendship
caught on
fire.

BRIDAL testimonials

// Sven's work is amazing and he is so much fun to have around. He should be your first choice of photographer for your wedding day. He is the complete package! His quality of photos, drone shots, Photo Booth and videography are amazing! He is a photographer that has great experience and makes you feel confident to hand over the organising and just relax and enjoy your day. His friendly and fun nature meant we could have some fun with our photoshoots. He also has that skill to capture those split second moments that are natural and beautiful. We cannot thank you and your colleagues that helped out on the day enough for capturing out day and allowing us to relive the feelings each time we look over our photos.

Jenna Parry-Jones

// Brilliant work Steven! You were precise and professional! And did an exceptional job to keep our nerves at bay and give us the best direction for brilliant photos while being kind and easy to approach! 10 out of 10 mate! We'll be recommending you to all our friends in the years to come! Thanks again!

Ryan Wagener

// Steven went above and beyond all expectations that we had for a photographer for our wedding. Absolute champ and a true talent in his profession! From the moment he arrived at all of the different locations (Myponga, Stirling, Hay Valley), he was straight into capturing our moments. It was never an effort for him to travel all around the hills to our sites. He even got involved in the skeet shooting activity the boys had and blitzed them all. It was fantastic that he was keen to get involved and be part of the day.

He was wonderful at making everyone super relaxed and giving directions so that our pictures were natural. He has an awesome teacher voice so when we were ready for the group guest photo, he wasn't afraid to get everyone together.

Without a doubt, Steve would have the be the best photographer you could find and there's no questioning that you'll be blown away with his ability. Couldn't recommend him highly enough for capturing the memories of your day. Legend!!!

we offer more

AS STANDARD

SOCIAL MEDIA SHORT

Share your day while you wait

Soon after your wedding day- usually the day after, SvenStudios loves to augment your photography with a short 1 minute long video that's perfect to share on social media! Longer videos are able to be made at an additional cost.

VIRTUAL REALITY VIDEO

Relive your day using VR tech

As part of any wedding photography service, SvenStudios will also create a 360 virtual reality video of your wedding ceremony, allowing you to relive the happiest moment of your life from the point of view of your guests!

AERIAL PHOTOGRAPHY

Capture your day from the air

Also as a complementary service, part of any wedding photography package through SvenStudios, we offer the use of our drone. SvenStudios are CASA certified drone pilots, allowing us to create some unique shots!

*"you know you're in love
when you can't fall asleep,
because your reality
is finally better than
your dreams."*

- Dr Seuss
