

SVENSTUDIOS  
WEDDING PHOTOGRAPHY

# Hello!

My name is Steven, and I'm the award winning photographer behind the 'SvenStudios' brand.

As a wedding photographer, I pride myself in my ability to capture the emotion behind a wedding by following a mainly photojournalistic mentality which produces natural, heartfelt scenes that show true emotion. I enjoy 'capturing moments' as they happen, and having a bit of fun while having your photos done. I try to capture your day as you remember it, and use my considerable artistic ability to make your images come alive in a way you'd be proud to show them off to others.

SvenStudios prides itself on providing an artistic option in wedding photography that provides natural photos that you'd be proud to hang on your wall. I work in the background of your wedding, capturing small moments of pure emotion while also stepping in to enhance your imagery by utilising my considerable experience in wedding photography.

I'd love for the opportunity to organise a no obligation meetup to have a bit of a chat about your wedding and to get to know each other better. I love hearing about your wedding ideas and would love to contribute some of my own!

Looking forward to it!

-Steven Duncan  
Master Photographer of the AIPP

# Why Sven Studios?

I approach my weddings as if it were my own, as a result I tend to connect to my clients on a more personal level. Rather than directing people constantly while following a formula, I like to go with the flow of your own wedding day. As a result I capture wedding photography more indicative of your personalities. Every wedding is different, and I view that as the exciting aspect of wedding photography. I'm constantly gauging you and your guest's personalities and adjust my shooting style to suit.

I find the most natural images, that are full of emotion come while acting out normal activities, such as walking down a path, or making each other laugh. I use my own personality to connect with you on a personal level; and the result are natural and full of love.

Quite honestly, there is nowhere I'd rather be than shooting a wedding as I quite honestly enjoy what I do and you'd be hard pressed not to see me with a smile on my face while doing it!

On a professional level, I'm a fully accredited member of the AIPP, Australian Institute for Professional Photographers and have won numerous awards over the years. I am tertiary educated in photography and multimedia and have been shooting weddings since 2012.

# Testimonials

“Steven is amazing! From the moment we met Sven we knew he was the photographer for us. His laid back approach combined with his eye for detail was perfect for us. On our wedding day he put up with our craziness and was happy to go with the flow. The end product is beautiful and I’m so glad that these are the photos we’re going to have forever. Can’t recommend him enough!!”

-Bek D

“Steven was a wonderful photographer for our wedding in the Barossa Valley. He was always professional, super-positive and relaxed throughout the whole day! He had a lot of fun and creative ideas for setting up the photos. He politely and effectively told us just what to do, yet we always had the freedom to be ourselves and felt relaxed in all the photos. He captured the day beautifully – the photos reflect so many little moments that last split seconds, but can now be treasured for a lifetime! We highly recommend Steven – you won’t be disappointed”

-Danielle N

Easy going to work with. Being around Sven really put us in a relaxed state of mind while taking photos all day. Highly recommend this cool chilled photographer for weddings which can be extremely stressful!

-Wendy T

# We offer more!

## Photobooth hire

Have our automated, open-air photobooth on hand to capture a more fun, silly side of your guests at your reception, at a discounted rate when having SvenStudios also photograph your wedding!

## Virtual Reality video

As part of any wedding photography service, SvenStudios will also create a 360 virtual reality video of your wedding ceremony, allowing you to relive the happiest moment of your life from the point of view of your guests!

## Drone photography

Also as a complementary service, part of any wedding photography package through SvenStudios, we offer the use of our drone. SvenStudios are CASA certified drone pilots, allowing us to create some unique shots!
